

Enable Home Health Care Agencies to Increase Medicaid Revenue, and Improve QoPC star Rating by Preventing Hypertension.

Increase length of stay by up to 5.3 years for 52% of residents

- Assisted Living Facilities can delay the onset of hypertension in their residents, increasing revenue by up to \$273,480 per resident due to greater length of stay.

Works with existing infrastructure

- No changes required in equipment or personnel cost.

Easy to use

- Weekly reports on which residents have an increased risk of hypertension.
- 52% of residents in long term care facilities have mild or severe hypertension.

Integrated with PointClickCare

- The platform works with your existing EHR and workflows, and can retrieve real-time patient demographic and vitals information from PointClickCare.
