

Enable Home Health Care Agencies to Increase Medicaid Revenue and Improve QoPC star Rating by Preventing Hypertension.

Identify patients that have undiagnosed pre-hypertension and Stage 1 hypertension and are eligible for \$1,387 of Medicaid reimbursement per year (CPT 99453, 99454, 99457)

- 40% of patients with hypertension in long term care facilities are undiagnosed

Improve outcomes of QoPC Rating System (OASIS) and Patient Surveys (HHCAHP)

No additional staff time required

- Monthly actionable reports on which patients have an increased risk of hypertension
- Reduction in hypertension in patients results in 50% less staff time requirements for ADLs in 2-7 years

Integrated with PointClickCare
