## CHRONIC DISEASE PREVENTION PLATFORM

Hypertension and Cardiac Disease Prevention

Benefits of Using Our Chronic Disease Prevention Platform

14X ROI Achieved By CardiacDetect™ and HypertensionDetect™ Modules

Regular remote patient monitoring gives a 4X ROI to healthcare providers based on Medicare reimbursements. Our chronic disease prevention platform provides an additional 10X ROI because early detection of 5 chronic conditions using our built-in disease specific risk indicators.

4X ROI Achieved By Saving Nurse's Time

Our geriatric care platform also gives an additional 4X ROI based on the time saving achieved by nurses and nurse managers using the platform. Our platform also provides nurse managers with real-time updates about capacity, condition, and overdue tasks.

Care Pathway Management

Nurse managers can use the care pathway management tool CareManage™ to build a care pathway delivery strategy for residents. This CareManage™ tool automatically translates this strategy into a personalized care-pathway recommendation for the patient.

Integrates with existing infrastructure

Our platform is already integrated with PointClickCare® the largest EHR in the long-term care marketplace

Reliable Handover Across Multiple Facilities

Nurse managers can seamlessly book appointments and handover patients from the facility to doctors using secure email. Nurse managers can also send patient reports directly to the doctor's EHR.
